## Michigan's "Iron Fist" Division Heads For Field Training

Michigan Army and Air National Guardsmen, 8,500 strong, will travel from cities and towns in all corners of the state next Saturday, August 15, to three sites in northern and western Michigan for their 1953 field training. It has been announced by Brigadier General George C. Moran, the Adjutant General of Michigan.

Scheduled to rendezvous at Camp Grayling are the 111 units of Michigan's own 48th "Iron Fist" Division along with several non-divisional Army-National Guard units. Five miles away Grayling Air Base will come to life again as Michigan Air National Guardsmen from Detroit and Battle Creek move in for their first field training since 1950 and reorganization after active military service in the Korean emergency.

Across the state at Camp Claybanks, some 35 miles north of Muskegon, the 146th Antiaircraft Artillery Automatic Weapons Battalion and 222nd Antiaircraft Artillery Detachment (Radio Controlled Airplane Target) from Detroit and the 300th Antiaircraft Artillery Gun Battalion of the Upper Peninsula and Manistee will settle down for their two weeks of intensive field training.

Two last and one first for top commanders will mark the 1953 field training.

## Blood Bank Disappointing

A clinic for the drawing of blood for the Crawford County Blood Bank held last Friday at the Grayling Sportsmen's Club building was extremely disappointing with only three local blood donors. Nine or ten men from Camp Lehman, the prison labor camp at Hartwick Pines State Park also came in, to give blood.

The clinic was moved from the basement of the Michelson Memorial Church to the Sportsmen's building when a mixup in scheduling caused a meeting slated in the church basement.

Those working on the clinic were Dr. C. G. Clippert, Dr. E. F. Hayes, County Nurse, Johanna Gorman and several student nurses from Grayling Mercy Hospital. Mrs. Glen Fenton, Mrs. J. L. Martin and Mrs. Russell Wright served on a refreshment committee and were aided by several high school girls.

The county's blood quota was far from reached by this clinic and it is quite possible that another blood gathering clinic will be held again this fall. If it is, everyone is urged to sign up to give a pint of blood that may save a life — even your own.

That the Oaks families are true to their name, hardy and loyal, was amply proven Saturday when, in defiance to the rain, they came from far and near for their 32nd reunion.

The Old Logging Camp at Hartwick Pines, which has been a favorite meeting place many times, was again a happy refuge from the rain, with plenty of room for the happy young fry and for the greetings and visiting of the older folks. Races and contests with prizes delighted the young folks.

Officers elected for next year were President, Marx Stephan, Vice President, Junior Palmer, Sec. Treas., Lois Barnes. Entertainment committee, Le Palmer, Allen Stephan, Norma Parker.

## Bowling Alleys Need Help

The building committee of the Community Bowling Alleys being sponsored by the Grayling Post 108, American Legion, today pleaded for volunteer help to put up the ceiling in the building as the bowling alleys are expected in about two weeks.

Volunteer help will be more than welcome any evening this week or this coming week end, it was said. The joists are up and the aid is needed in stripping the ceiling and putting up ceiling blocks. This part of the building must be done before the crews will start putting in the bowling alleys. With the alleys due soon, help is needed desperately if the alleys are to open on schedule for bowling this fall.

In case you have forgotten the other league officers are Jean Rasmussen, vice president; Ann Hanson, secretary and sergeant at arms Kathryn Knaue.

"The generosity and philanthropic expression on the part of our summer residents on the Ausable River and at Higgins Lake and other lakes is an inspiration to all of us," the committee stated. "We hope that many more will take memorial rooms because only in this way will it be possible to raise the necessary funds, for large gifts are needed in a campaign with a goal of \$300,000 in this area. We feel confident that the local people will do their part when that stage of the program is conducted."

From where I sit... by Joe Marsh

Harvesting a Better America

Rubbed my eyes yesterday when I saw Hap Jackson's truck in Bill Morgan's alfalfa field... helping Bill get in his cutting.

Since they've been carrying on a friendly argument for years (over how much fertilizer to use per acre of alfalfa), I had to ask Hap what was going on.

"Got my own crop in safely last week," he says. "And since Bill's boy is at the summer encampment of the National Guard, I figured the least I could do was to help him out. After all," Hap went on, "there's no argument

over how important the National Guard is to all of us."

From where I sit, a fellow like me, who's too old to get in the Guard, can still vote, do a turn at jury duty, and respect others' rights. Even a little thing like respecting a neighbor's right to have, say, beer or butter milk at dinner is important if we want to keep America strong. We have to be on "guard" in more ways than one these days!

## False God

There is no such thing as free money from the federal government. Grants-in-aid, subsidies or other such handouts can come only after the necessary where-withal has been taken from us in taxes. The growing realization of this fact in all parts of the country is the best sign in a long time that government economy, a balanced budget, and lower taxes are possible.

The new trend in thinking is well exemplified in statements made by the Missouri Public Expenditure Survey, which recommends that the national government reduce or relinquish as soon as practicable those taxes on functions which can effectively be administered by state and local government. In Missouri according to the Survey, "not only does the taxpayer pay in taxes to the federal government for the aid the state receives, but finds that in the process of passing from the taxpayer to the federal government and then back to the state the original dollar has undergone considerable shrinkage."

As a matter of fact, \$86,000,000 more is collected in federal excise taxes alone in Missouri than is returned through the 45 federal aid and subsidy programs operating in the state. Obviously, if it had some of the tax sources within its border now utilized by the federal government, Missouri could easily assume responsibility for many of the programs now undertaken by Washington.

The new commission of Inter-governmental Relations approved by Congress at the request of President Eisenhower will probably recommend far-reaching changes which may do much to restore to local and state governments freedoms, rights, and responsibilities they have been relinquishing to the false god of central authority.

## Seek State Archery Range

Archers here have been mulling plans for location of a field archery range since Michigan was chosen last month as one of two states where annual national target competition will take place.

As yet, no definite plans for location of the range in Michigan have been announced. Wisconsin has a permanent site at Tow River, comprising six 28-target courses. The eighth annual national field archery tournament was held there last month and was attended by more than 500 archers. The record for attendance at a

national tournament was set in 1950 when about 600 shot over a course near Pawas City. The board of directors for the National Field Archery Association decided at the Two Rivers tournament last month that henceforth annual competition would be held one year in Wisconsin, one year in Michigan and each third year in one other state. The decision was made in view of the large amount of interest shown in archery by Michigan and Wisconsin sportsmen.

A large number of past and present national archery champions reside in Michigan. Archery hunting has also enjoyed increasing popularity during recent years. Sales of archery deer licenses jumped nearly 22 per cent last year; more than 27,500 were sold in 1952 compared to about 19,500 in 1951.

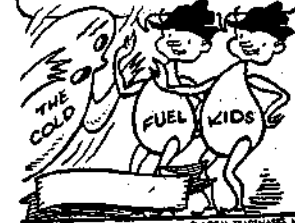

Sales have increased each year since the first archery license was printed in 1937; 184 were sold that season. This fall, department license workers estimate, 32,000 archers will take the field, that's more than the total number that hunted with firearms in 1923.

## Famed Negro Choir At Michelson Memorial Church On August 16

### WINGS OVER JORDAN CHOIR

The famed Negro choir, "Wings Over Jordan" will present a program at the Michelson Memorial Church on Sunday evening, August 16 at 8 P. M., it has been announced by the pastor, Rev. R. C. Puffer.

"Wings Over Jordan" has won the title of the world's most renowned Negro Choir. The idea for the development and necessity of this organization was conceived back in 1937 by the Reverend Glynn T. Settle, who at that time was pastor of the Gebesemane Baptist Church of Cleveland, Ohio. Because of the lack of understanding between the two dominant races, Reverend Settle was inspired to use his own church choir as a means of showing different races and creeds that the American Negro is a worthy, hard-working citizen of a free land.

Unlike most new ventures, "Wings Over Jordan" became popular almost immediately in Cleveland after making personal appearances there, and soon began to receive requests to give concerts outside of Cleveland. Reverend Settle, still inspired with the determination to carry on, then took his church choir to Radio Station WGAR in Cleveland, and asked for an audition. On July 5th, 1937, "Wings Over Jordan" gave its first radio broadcast. From the first broadcast, letters came pouring in from listeners all over the country, praising the singing of the group and declaring that "Wings Over Jordan" had helped listeners develop a greater understanding and respect for the Negro, through their songs of faith and inspiration.

In answer to requests for personal appearances, "Wings Over Jordan" began touring the country, and so far, have appeared in 45 states, averaging 50,000 miles per year, giving concerts night after night to enthusiastic audiences everywhere.

Six months after their first broadcast "Wings Over Jordan" became one of the featured programs of a coast-to-coast Columbia Broadcasting System hook-up where they have been heard by millions every Sunday, except during the time when they were chosen by the late Franklin R. Roosevelt to tour Europe and sing to servicemen. They spent more than ten months overseas. "Wings Over Jordan" was the only choir group to be sent to the battlefield during World War II. They visited servicemen in Italy, France, Belgium and Germany, and received two special citations from commanding generals in the European Theatre for outstanding service.

Since returning, the group has appeared in famous concert halls in 45 states including New York's Town Hall, Madison Square Garden and Carnegie Hall; Hollywood Bowl in Los Angeles; Convention Hall in Philadelphia and many others. Recently "Wings Over Jordan" was sponsored by the United States Treasury Department, assisting in the sale of Savings Bonds, over the Mutual Broadcasting System's coast-to-coast radio net work, every Sunday. More than any thing else, the Spirituals sung by "Wings Over Jordan" actually tell the story of the American Negro through music, feeling and depth of understanding. Negroes and white alike have expressed deep appreciation for the music of this

## YOUR MILK...

Many of us think we are mistreated if we have a little hard time and a few bumps. Not many of us would want to live in a perfect world. We would lose life's meaning and purpose. It would be a dull baseball game if every player made a home run. And if every woman was beautiful there would be no need for beauty parlors. Not many men had more setbacks than Abe Lincoln. Every time he had a setback, he burned his bridges behind him. Then he had to go ahead. One setback after another made him one of the greatest and most loved mortals who ever lived. When young eagles get old enough, the mother eagle will throw them out of the nest and they must shift for themselves. ## In every way, more car for your money !

Ford gives you V-8 power like that of costly cars... fine car build... fine car ride and 'at-home-everywhere' good looks - but the price tag never moves out of the low-price field

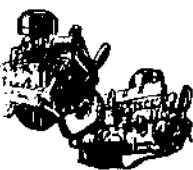

Everywhere you go people are making the swing to Ford. And can you blame them? Many cars costing over \$1000 more offer no more of the things you need and want. Here are some of Ford's "Worth More" features... but to get the full Ford "Worth More" story, visit Drive a new Ford today!

Less front-end road shock. The kind of shock you feel most is reduced up to 80% with Ford's new ride. You get a smoother, more balanced, more comfortable ride all around!

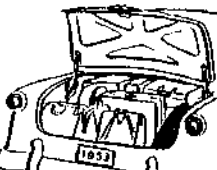

Suspended pedals are designed to work easier and make foot space of your Ford's entire floor area. Suspended pedals are also a "keep out" sign to dirt and drab... make it easier to keep the floor clean!

Smooth V-8 power is exclusive to Ford in its field. And Ford's Mileage Maker is the most modern Six you can own. Both the V-8 and Six-cylinder power plants deliver their bill-paying "go" on regular gas — and not much of that, thanks to Ford's Automatic Power Pilot!

An extra suitcase will fit into Ford's luggage compartment — the roomiest in the low-price field. In fact, Ford's combined luggage and passenger space is the greatest in the low-price field... compares with that of many cars of higher price.

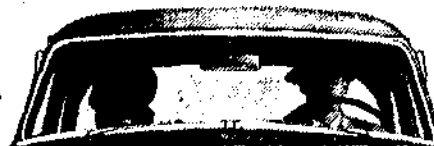

Center-Fill fueling permits filling your Ford from either side... saves you time when refueling... and puts an end to hose scratches on your fender!

Curved one-piece windshield (below) and large picture windows, give Ford the most "look out" area in the low-price field... another reason your Ford is worth more when you buy it... worth more when you sell it!

See it... Value Check it... Test Drive it...

## Grayling Kiwanis Raises Milk Fund Money

## Archery Range Proves Popular With Guardsmen

(Photo Courtesy Bay City Times)

**BOWMEN ASSIST NEEDY CHILDREN**—An archery range is the novel scheme thought up by members of the Grayling Kiwanis club to raise money to purchase milk for underprivileged children of Crawford County. The range is popular with National Guardsmen at Camp Grayling. Shows above with a group of archers are (left to right) Fred Welsh and Willard Cornell, Grayling Kiwanians. M/S Walter Crumpton and Cpl. Norman J. Gerhardt, of Fort Wayne, Ind., Cpl. Floyd Cain, of Wolcott, Ind., Cpl. E. J. Madary, of Peru, Ind., Pvt. Ray Payne, of Peru, Ind., all members of the Indiana Guard who were at Camp Grayling for the two week training. Underprivileged children of Grayling will be supplied with plenty of milk when school starts in the fall because of something different in money-making projects sponsored by the Grayling Kiwanis club. The club has set up an archery range in the downtown business section of Grayling to help swell their underprivileged children's milk fund. For 25 cents you can have the pleasure of shooting 10 arrows at targets. The range is manned by two Kiwanians every night of the week, the whole club membership taking turns at the job. Each team seeks to outdo the other on proceeds. The archery equipment which is a popular sport item in Northern Michigan, is all made at the Bear Archery Co. in Grayling. The range is expected to run the remainder of the summer with all proceeds to go to the milk fund.

This demonstration showed me the way to a better deal!

I'd been planning to buy a higher-priced car until I found out all Chevrolet offered—and how much I could save!

You get more power on less gas

That's because Chevrolet's two great valve-in-head engines are high-compression engines. In Powerglide® models, you get the most powerful engine in Chevrolet's field — the new 115-h.p. "Blue-Flame." Gear-shift models offer the advanced 108-h.p. "Thrill-King" engine.

And it's the lowest-priced line

A demonstration will show you that Chevrolet offers just about everything you could want. Yet it's the lowest-priced line in the low-price field.

\*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.

Let us demonstrate all the advantages of buying a Chevrolet now!

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!
